EXECUTIVE SUMMARY

Consolidated financials (Q4 FY 2023)

Operating Revenue dropped by 11% YoY to Rs. 21943 Lakhs

EBITDA lower by 29% YoY to Rs. 3380 Lakhs and EBITDA margin lower by 381 bps at 15.40%

PBT was lower by 36% YoY at Rs. 2580 Lakhs

PAT lower by 45% YoY to Rs. 2027 lakhs

Strategic

Demand in Thailand market remained muted due to low uptake in US and Europe tyre industry.

Severe competition in market presently due to supply of Bead Wire being more than demand.

The company has changed the strategy now to ensure efficient use of capacities and maintaining market share.

OUR BUSINESS HIGHLIGHTS

Rajratan India

- The capacity utilization levels in Q4 stood at **93%**.
- After a slight drop in volume, the Indian market recovered during the last quarter of FY 23.
- The Indian factory, that is globally approved for a multinational tyre company is in discussion regarding supplies to the European region (EMEA).

Rajratan Thailand

- The capacity utilization levels in Q4 stood at **67%**.
- The sales volume dropped due to weak demand and inventory correction taken by tyre companies operating in Thailand.
- The new plating line was commissioned and will start commercial production from Q1 FY24.
- Targetting exports to South East Asia, USA and Europe and in talks with major companies for approval.

GROWING OUR CAPACITY

India (Chennai)

- Completed approximately 80% of the building.
- Mechine commissioning initiated.
- Mechanical and Electrical infrastructure work under process.
- Expecting trial production to commence in H2 FY24.

This is a visual representation of the proposed Chennai plant.

Thailand

- Plating line commissioning work completed
- Working on upgrading utility and building infrastructure, after which Wire Drawing Capacity will be increased in a phased manner.

RISKS AND MITIGATION

Risks

- Lower volume for Thailand business due to stock correction taken over the last three quarters.
- The Bead wire industry in China was severely affected by COVID induced shutdowns, leading to dumping of materials at lower prices to customers.
- In India, inventory corrections were taken in Q2 and Q3 of FY 23.

Mitigation

We expect demand to recover in FY 2024 and are closely collaborating with tyre companies in Thailand and South East Asia for securing bigger volumes in future quarters.

The domestic economy in China is opening up in a staggered manner. This is likely to increase domestic consumption in China. Additionally, we are framing a price strategy to ensure that our sales volume and production capacities are optimised while sustaining our market share.

Q4 FY 24 witnessed revival in volume even as Indian tyre industry continues to be bullish about domestic consumption as well as exports to USA and Europe.

INITIATIVES IMPLEMENTED IN Q4 FY23:

TPM

- The TPM Technical Training Centre was inaugurated.
- Achieve the Basic Condition of Machines
 - 96% of critical machines (S&A category) passed Step 3 of the JH
 - 46% of non-critical machines (B&C category) passed Step 3 of the JH
- Improved OEE from 55% to 62% at the pre-drawing process
- Reduction of breakdown occurrence by 37%
- Hazard Identification and Risk Assessment (HIRA) mapping is done, and 62% of potential risks are addressed through engineering solutions.
- Challenging the TPM Significant Commitment Award from the CII TPM Club of India by August 2023
- Plan to apply for the JIPM Excellence Award - A category by December 2023.

ADOPTING DIGITISATION

- Ensured 100% implementation of all decisions, small or large
- Improved employee engagement
- Real-time dashboards at 1/10th the time and 1/4th the cost
- Improved manpower productivity
- Increased uptime of critical workstations
- Prevented performance leakages in bottleneck operations
- Saved ~1500 man-hours per month on data compilation.

SCALING UP OUR ESG INITIATIVES

- The Company uses 70% of the raw material manufactured through the scrap route at the Thailand plant.
- The Company is reusing chemicals to reduce industrial waste.
- The Solar Roof Top Project is expected to be installed in Rajratan, Thailand, by April 2023.
- At Rajratan, India, zero liquid discharge is installed and a dust collector is installed. We are implementing the same in Rajratan, Thailand.
- These efforts will lower power consumption and operating costs. Also, recycling treated water and reducing solid waste management costs have been prioritised.
- Created an Energy Conservation Committee with the objective of reducing power usage by reducing waste in Rajratan, Thailand.
- ISO 14001 certification is under process in Rajratan, Thailand.
